PAYING WITH VENMO

HOW TO USE VENMO

1. You can use Venmo with both an iPhone and Android device. If you haven't already, install Venmo for iOS or Venmo for Android.
2. After the app is installed, follow the instructions in the app to set up your account.
3. You need to connect your Venmo account to a payment type, such as a bank account, credit card, or debit card. In Venmo, tap the three horizontal lines at the top right of the screen (the hamburger menu) and then tap "Settings."
4. In Settings, in the Preferences section, tap "Payment Methods."

HOW TO MAKE A PAYMENT USING VENMO

1. Start Venmo and then tap "Pay or Request" in the lower right corner.
2. Next, in the textbox, enter the username of the person you want to pay.
3. Enter the amount you want to send.
4. Here, write a brief memo or description of what the payment is for. We suggest this format when paying your DBA membership: (Your Name or Business Name) (monthly, quarterly, or yearly) (Membership Type)
 - a. Ex. [DavisBack Media, Yearly, Business]
 - b. You can also alter who can see the payment by tapping the icon near the bottom of the page that reads "Friends," "Public," or "Private."
5. Once you've filled out the payment amount and memo, select "Pay."
6. For the final step, you can specify how you'd like to pay — choose between the credit and debit cards or bank accounts linked to your Venmo.
7. If everything looks good, tap "Pay" at the bottom of the page. You will then receive a confirmation email and the transaction will appear on your Venmo profile page, and in your feed.
